# SPECIAL NOTICES.

Sloan's Cintment.

We would call attention to the advertisement in our columns, of this popular and truly Great Remedy. We have witnessed its extraordinary virtue in a varity of obstinate cases, and heard of many cures it has performed, that really appear incredible, were they not testified to by persons of veracity. For obstinate old sores of every kind, fresh wounds, burns, corns, sore nipples or broken breasts, it has no equal. And for piles it is warranted to cure every case, no matter of how long standing, or how horribly the patient may be afficted.

It would hardly do for any one to have the temerity nowa-days to question the excellence of Dr. Hoofland's German Bitters, which are prepared by Dr. C. M. Jackson, In cases of dyspepsis, liver complant, and derangement of the digestive organs, their many virtues have long since been made plainly apparent. They purge from the system the morbid humors which retard their natural functions, and bring paleness to the cheek and suffering to the brow. They banish those clogs upon happiness, and restore the system to high health.

Syphills, Scrofula and Diseased Blood. For these terrific diseases, Carter's Spanish Mixture is the only specific. The proprietors have in their possession over one hun-

dred certificates of the most extraordinary cures effected by

moth Circus; Dr. Hundly, of Wasington City; Mr. Wm. A. Matthews and C. B. Luck, Esq., of Richmond, Va.; Mr. F. Boyden, Exchange Hotel, Va.; and a host of others, who have seen cases of the worst description cured by Carter's Spanish Mixture. They all certify that it is the greatest purifier of the blood known.

Proposals will also be received, addressed to Nashville, until Tuesday, the 10th day of July, for the grubbing and clearing grading and masoury, crossies, &c., of 30 miles of the castern division of said road, commencing at Nashville. The work is divided into sections of about one mile each, and proposals will embrace one or more sections. The mid-dle division of eighty niles will be ready for contract about the first of September, of which due notice will be given.

This line of road pames through a five, productive and healthy country, well watered and where supplies can be produced readily along the line, and as cheap as at any point in the Northwest. The work on the sentent division is principally earth work, and the material is light and exceedingly early of excavation. The eastern division is heavy work, embracing about 140,000 yards sock excavation, and work, embracing about 140,000 yards rock canavation, and 28,000 yards musoury. The whole line is of ca. y access by good roads; the country is calling and healthy. TO PHYSICIANS, TEACHERS OF ELOCUTION, DENTIST, AND OTHERS.

THE undersigned, after many years of study and expense, having now perfected and patented appliances for the permanent core of Stammering in all its Forms,

however complicated, and by a simple process, is now disposed to offer for sale to competently educated men. State Rights for the same, and will receive proposals for one month for the right to this State, ( ,) the amount asked for it being far below what elecutionists frequently charge for attempting to cure an isolated case.

By this process success is certain, if the party afflicted obey the directions, which requires but a limited time and obey the distance of the plan of the inventor has received the highest testimonials from distinguished medical men and scientific institutions.

The Franklin Institute of Philadelphia, after a close and

scrutinizing examination of this invention, on reference to their Committee of Science and the Aris, conferred on the inventor the highest premium in their gift, as well as the Scott Legacy premium, which is only given to very extractionary and meritorious discoveries—(advertisement being first made of their intention for three mouths, at the expense of the corporation of Philadelphia, that competitors may be The Penusylvania State Fair also awarded an extra diploma.

The Metropolitan Institution, of Washington, conferred

their first premium, and he has an abundance of testimoni-als from distinguished medical men there. Professor Robley Dunglison, of Jefferson Medical College, lectured on this subject, and explained to his class the strict scientific and physiological principles on which this invention is based. (See Med. Fxaminer, July, 1852.)

Professors Valentine Mott and Parker, of New York, as well as numbers of others in that city, concur with Professor Many parents have children on whom they have spent

hundreds, and in some instances, thousands of dollars, among elecutionists, endeavoring to have them broken of this habit, and all of no avail By this system, and but or dinary practice and a determination on the part of the person to succeed, success will in every instance be that re-

The inventor is aware of the numerous attempts that have been made for many years to cure this defect, and the annoyance stamerers have been subject to. He wishes such to understand that he has spent during the past thirty years nearly a fortune among those who have attempted to remove this difficulty, and all of no avail. Being determined to discover such means, if within his reach, he has closely studied the matter in all its phases, cured himself perfectly and readily; his invention was then patented, and in every instance where he has exhibited it to scientific men and institutions of learning, he has carried off the highest prize. "It is an every day occurrence, to meet with persons who
"feel no interest in the subject of religion, and who, on this
ground, excuse themselves from giving their attention to it.

I have in very many instances wanted some suitable book
to pince in the hands of persons of this description.

"Within a certain broad and comprehensive sphere, Baxter's Call, Alieline's Ainrm, Boddridge's Rise and Frogress,
or Halyhurton's Great Concern of Salvation, might answer
the purpose. But with a great number of individuals, not
one of these admirable works could be used with any hope
of its being read. one of these admirators were solved of its being read.
